

EAO – Your Expert Partner for Human Machine Interfaces

82-4551.1116 - Illuminated pushbutton 16 mm Aluminium, momentary

82-4551.1116 - Illuminated pushbutton 16 mm Aluminium, momentary

Mounting

Design	flush
Mounting cut-out	Ø 16 mm

Front

Front shape	round
Front ring shape	flush
Front dimension	Ø 18 mm
Front bezel material	Aluminium

Other Attributes

Operating voltage	230 V AC
Weight	0.018 kg
Operation current	1.3 mA

Operating-/Indication part

Lens optics	opaque
Lens material	Aluminium
Lens profile	flat
Lens illumination	illuminative
Lens colour	natural anodized

IP-Rating

Front protection	IP 67 / IK 10
------------------	---------------

Connection Method

Terminal	Solder 2.8 x 0.5 mm
----------	---------------------

Actuator

Switching action	Momentary
------------------	-----------

Switching element

Switching current	5 A
Contact material	Silver
Contacts	1 C
Switching system	Snap-action switching element
Switching voltage	250 V AC

Illumination

Illumination	Ring with red LED
--------------	-------------------

Function

Illuminated pushbutton

Series 82 | Vandal-Resistant Pushbutton

EAO, the expert partner for Human Machine Interfaces, offers a range of attractive, vandal-resistant pushbuttons for applications in harsh environments. With their robust metal housings, these innovatively designed switches are protected to IK10 impact resistance and IP67 sealing requirements which makes them ideal for use in exposed public areas as well as other aggressive environments. The switches are available with momentary or maintained action, and with a choice of central dot or ring illumination.

Main features

- Vandal resistance: Impact resistant to IK10, sealed to IP67 standard
- Long service life: > one million cycles of operation
- Optional illumination with daylight readable LEDs
- Metal housing with attractive design
- Excellent tactile switching action

Typical applications

- Access control, security systems
- Exposed public areas: Ticketing machines, vending machines, public kiosks
- Industrial: Machinery and factory equipment
- Lifting and Moving: Elevators and people movers

Mounting cut-out

Ø16mm, Ø19mm, Ø22mm

Materials

- Stainless steel SUS 304
- Stainless steel chrome coloured
- Brass gold coloured
- Aluminium (natural anodised), other colours on request

Switching system

Switching element	Snap-action switching element
Contact arrangement	NO/NC (changeover)

Switching action

Momentary or maintained

Contact material

Silver alloy

Mechanical properties

Mechanical lifetime

> 1 million cycles of operation

Actuation force

4 ... 7 N

Terminals

Soldering / plug-in terminals 2.8 x 0.5mm

Screw terminal

Electrical properties

Rated insulation voltage

250 VAC

Conventional thermal current

5 A

Electrical life

> 50 000 cycles (full load)

Service category

AC-15 (cosφ0.3) and DC-13 (according to IEC 60947-5-1)

	24 V	110 V	220 V	240 V
AC	1 A	1 A		0.5 A
DC	0.7 A	0.2 A	0.1 A	

Switching element

Contact resistance

≤ 50 mΩ, according to IEC 60512-2

Isolation resistance

> 1000 MΩ, according to IEC 60512-3

Dielectric strength

1500 VAC, according to IEC 60947-5

Environmental conditions

Storage temperature

–40 °C ... +80 °C

Operating temperature

–30 °C ... +70 °C

Operating humidity

45 % ... 85 % RH (no condensation)

Front protection

IP65, IP67, according to IEC 60529

Impact resistance

IK10, according to IEC 62262

Approvals

CE, CB, UL, C UL, CCC
